Subject: Please Support the Clean Energy Resolution!

Dear City Council of Ketchum,

As a Ketchum resident, I am asking that you please pass the clean energy resolution that will be presented to the City Council on Monday, December 7th. With the looming threat of climate change, we need bold leaders and bold climate action plans. We see the impacts of climate change every day right in our own backyard, from ongoing droughts and water shortages, to thinner winter snowpacks that melt earlier every spring, to devastating wildfires that fill our valley with smoke and threaten our homes, to the beetles and disease that are killing off Baldy's trees. Faced with such devastating and worsening threats to our environment and our livelihoods in this recreation and tourism-based economy, our community cannot afford inaction.

This resolution is a golden opportunity for Ketchum to continue to lead on sustainability. It sets ambitious, yet achievable goals, and lays the framework for building a concrete plan forward.

I urge you to pass this resolution so that Ketchum does not miss this opportunity to lead on climate action. I am proud to live in a town that has historically been a leader on sustainability issues, and I hope that Ketchum can continue to make us all proud to be part of this community.

Thank you!

Sincerely,
Josh Johnson
