Subject: 4th Street Closure to Vehicle traffic

Dear Ketchum City Council:

I am heartened to hear of the recommendation to close 4th street between Walnut and Leadville to vehicle traffic this summer. It will keep the city center vibrant to promote foot and bicycle mobility, possibly more vibrant than with cars, yet quieter and more enjoyable to spend time in.

The great pause we had silver linings. One of them is to appreciate the place we are in, at a slower pace. May encouraging more human friendly (pedestrian) enjoyment of our downtown achieve both increased commercial traffic and heightened enjoyment of place.

And last and most importantly, it will lower our carbon footprint, as if we don't do that in the next 10 years, we'll neither enjoy increased economic activity nor place.

Thank you

Warm regards,

Erica Linson
