Subject: 4th street feedback

PLEASE RE OPEN OUR STREET AGAIN!

it has become a nightmare trying to navigate around what is now one ginormous city block in order to park at atkinsons. it is also somewhat of a safety hazard with people and bicycles flying every which way through that intersection, oblivious to the cars that still need to push through. i also empathize with the business owners and completely understand their legitimate frustrations. i cannot attend the sept 2nd meeting (for free ice cream) but this is my free advice. only thing i have ever commented on 15 years living this valley.

thank you for listening!
katherine
