

4 September 2020
Friday Morning

City of Ketchum
Box 2315
Ketchum, Idaho, 83340

Attention: Neil Bradshaw, Mayor

Dear Neil,

I am in favor as well as many of my clients in closing the one street in front of Town Square.

There are so many things you can do with that block by removing the pavement and placing "trees in certain locations surrounded with a paver ground and then add all you umbrella's and chairs and benches etc. so it has more of a "park like feel". Basically, adding to Town Square. This will take some time when the monies will be available.

For use, go by around noon and see how many tables or umbrellas are in use. "Several". Also certain coffee breaks, I notice people chatting under the umbrella's.....could be really a pleasant atmosphere for the city in years coming (trees need to grow).

I know you are presenting this to our village but it does take time for them to handle some change. You will get there some way or the other. Keep up the good work.

Regards,

Charles Stuhlberg
