Subject: Winter Parking- Evergreen condos First Ave., between River and First Street

Since 2007, our block has endured "Snow Plow Central" giving us no peace as the snow plows deliver and constantly grind snow for dumping in front of my bedroom. And when it really snows, this goes on for 12 hours. This is a residential neighborhood! There are a total of 30 condos on this block. There are many blocks in Ketchum that are wide and not so residential, that can accept this burden.

Today, it has been brought to my attention that the city wants to use our block for Towing this Winter. There are many winter parking problems because you allow buildings to be built without parking! Also, I understand that you want to encourage drunk drivers to park their cars here. There are many lots that the Ketchum City owns. One, in particular is 1 block from here and it is the Ketchum City Parking Lot that is never full. Ketchum city owns many lots, why don't you use those?

We are unfortunate enough to be near the bars, but you must find another solution to this problem as there are many lots that are empty around us.
