Hi,

I'm reaching out as a full-time resident living on 6th and 1st downtown. I wanted to submit my support for the expansion of the Winter Parking Program (detailed below). As a resident, it's a major inconvenience to have to scramble and find locations to park my car overnight. I typically walk to work, so having to move my car twice on a daily basis - and not having a designated space to move it to - is definitely a hindrance to a normal day. My building doesn't provide any paid parking options, either. Any additional options are very appreciated.

Most importantly, I think the winter parking additions are a wise safety measure to take -- especially with regards to less people driving at night, coming from dinner or bars.

Thank you!  
Claire Topalian

This year, city staff is proposing to maintain those elements and the following expansion components:

- Discontinue the practice of towing to a lot and instead relocate cars to Fifth Street between East and Walnut avenues. Individuals illegally parked would receive a \$90 tow fee and a \$40 parking citation.
- Designate First Ave. between River and First streets as even/odd nights for overnight parking.
- Designate Second Ave. between Fourth and Fifth streets as even/odd nights for overnight parking.
