---

Greetings,

Please set limits on the amount of short term rentals. The lack of control by the owners over their renters is out of control. There should be strict fines for renters that violate HOA rules and common courtesy to their neighbors. A prime example is leaving a pet inside day or night that bark obsessively while their owner is away.

There is so much more to say on this complicated issue so as to improve access for our long term housing shortage.

Thank you.
