To Whom it may Concern,

If you are proposing this expecting there will be more available for the locals, you are fooling yourselves and the public, as well as reducing the tax revenue from the rentals and further hurting retail. Poorly thought out and a very bad idea!

I would like to see you use your time and effort into making Ketchum City Hall operate like Sun Valley...friendly, prompt, helpful and knowledgeable, Still waiting for a return call from a Ketchum City planner- over 4 days ago...not to mention this request for accurate information has been going on for also 6 months.

Let's start an on line public list for wait times to get an accurate response from City of Ketchum - Maureen Peddicome excepted.

Respectfully submitted,  
Janis Fulton
